

CASH ADVANCE

WHAT IS A *CASH ADVANCE*?

A Cash Advance is an alternative cash flow solution to traditional bank loans. An advance can be used to cover payroll, pay taxes, expand inventory, or open a new location. A cash advance will allow you to borrow against your credit card processing volume and has a short payback period, getting you out of debt quicker.

HOW IT WORKS...

We have a variety of Cash Advance companies that we work with to negotiate the best rate for you. The process is the same for each company. They will review the last 4 months of your Visa/MasterCard volume and determine the average of your credit card receipts. That amount can then be funded to you in as little as 7 business days. Repayment is simple - a small percentage of your daily Visa/MasterCard sales are deducted to pay back the advance.

QUALIFYING CRITERIA...

- Current with suppliers
- Good standing with your Landlord or mortgage company
- Not in or about to file Bankruptcy
- Monthly Visa/MasterCard volume of \$5K+

No tax returns, financials, personal guarantees or collateral needed. There are also **NO** closing costs and **NO** fixed monthly payments to worry about.
